

REMARKS

Claims 1-14 are pending in the present application.

Claims 7-9 have been amended

Claims 10-14 have been added.

The amendment of Claims 7-9 and the introduction of new Claims 10-14 serve to remove multiple dependencies in the original claims. Support for the amendment of Claims 7-9 and the introduction of new Claims 10-14 is provided by originally filed Claims 1-9.

No new matter has been added by the present amendments.

Applicants submit herewith a substitute Sequence Listing and a corresponding computer-readable Sequence Listing. The sequence information recorded in the corresponding computer-readable Sequence Listing is identical to the paper copy of the substitute Sequence Listing. Support for all of the sequences listed in the substitute Sequence Listing is found in the present application. The specification has been amended to include sequence identifiers. No new matter has been introduced by the amendment to the specification, the submission of the substitute Sequence Listing, and the corresponding computer-readable Sequence Listing.

Applicants submit that the present application is in condition for examination on the merits. Early notification to this effect is respectfully requested.

Respectfully submitted,
